

WASTE, ORGANICS & RECYCLING SERVICE REMINDERS

CART COLLECTION

1. Place your cart out on your collection day by 7am
2. Ensure 1m (4 ft) clearance all around and above cart
3. Face cart to roadway (wheels to curb or edge of alley)

All cart lids must close completely. Keep cart placement locations and carts free of ice and snow. If parked cars are too close to carts or snow accumulation is present, pull carts further into roadway to ensure trucks can access.

PLACING YOUR CART

Blue bags must be clearly visible from the roadway with cardboard flattened inside, bundled beneath or contained within another box. Keep blue bags clear of cart(s).
